SOURCE DESCRIPTION:

On December 18, 2006 Dow Corning Corporation had submitted an application to the Kentucky Division for Air Quality for a significant revision permit to operate/construct a Silicon Sealants Manufacturing facility at 760 Hodgenville Road, Elizabethtown, KY 42701. The plant is classified as a Conditional Major source due to its potential emissions of criteria (and/or hazardous air pollutants and/or regulated air pollutants) greater than a major source threshold. This permit contains practically enforceable limitations to restrict this source's potential emissions too less than the major source threshold.

PUBLIC AND U.S. EPA REVIEW:

On June 11, 2007, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The News-Enterprise* in Elizabethtown, Kentucky. The public comment period expired 30 days from the date of publication. No comments were received during this period. The permit is now being issued final.
